

On February 24, 2025, President Alivisatos convened the Laboratory Schools Review Committee and charged its members with undertaking a comprehensive assessment of the Laboratory School's current practices, programs, and policies, as well as with proposing recommendations to guide the School's continued excellence in the decades to come. The committee's conclusions are detailed in the [Report of the Committee to Review the Laboratory Schools](#), submitted to the President on November 19, 2025.
