

THE UNIVERSITY OF CHICAGO

The Writing Advisory Group is part of the Artificial Intelligence and Education Committee, appointed by President Paul Alivisatos and Provost Katherine Baicker. It was established following the University's May 2026 announcement of an agreement with Anthropic to provide access to Claude Enterprise. The advisory group's work is detailed in the [Writing Without Artificial Intelligence: Principles and Recommendations document](#), submitted to the President and Provost in September 2026.

This work builds on the [July 2025 report](#) from the Artificial Intelligence and Education Working Group.
